SUMMARY

BS Information Technology graduate with hands-on experience in full-stack web development, systems design, and database management. Built and deployed applications using PHP, MySQL, HTML, CSS, and JavaScript — including an e-commerce platform and a university lost-and-found system. Also experienced in IT support, networking basics, and hardware troubleshooting through OJT at Batangas State University. Eager to contribute to a dynamic IT team as a junior developer or IT professional.

WORK EXPERIENCE

On-the-Job Training (OJT)

Sep 2025 – Nov 2025

Batangas State University — Lipa, Philippines

- Managed and updated class and faculty schedules
- Installed and configured Windows OS on multiple lab computers
- Optimized computer performance through system configuration and troubleshooting
- Provided technical support to faculty and administrative staff

Cashier / Merchandiser

Feb 2025 – May 2025

Pandayan Bookshop — Lipa Branch

- Processed customer transactions accurately and efficiently
- Managed product displays and inventory
- Provided customer assistance and product recommendations

PROJECTS

Online Bike Shop Platform — Sophia & Sabrina Bikestore

Stack: PHP, MySQL, HTML, CSS, JavaScript

<https://sopiaandsabrinabikestore.com>

<https://github.com/johnpaolo123/ecommerce>

- Built a full-stack e-commerce site with separate Admin and Customer interfaces
- Features include inventory management, product listings, and online order processing
- Designed both the front-end UI and back-end database schema

DiscoverEase — Lost & Found Management System

Stack: PHP, MySQL, HTML, CSS, JavaScript

<https://discoverease.byethost7.com>

<https://github.com/johnpaolo123/DiscoverEase>

- Developed a web app for Batangas State University students to report, track, and recover lost items
- Designed both the front-end UI and back-end database logic
- Supports item reporting, status tracking, and admin moderation

EDUCATION

Bachelor of Science in Information Technology
